

Project Design Phase-II Data Flow Diagram & User Stories

Date	18 June 2026
Team ID	
Project Name	ShopEZ-E-commerce-Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

Example: (Simplified)

Flow

1. User adds Smart Sensor to Edge Hub via mobile app.
2. Edge Hub registers and encrypts sensor telemetry.
3. Telemetry is sent to IoT Cloud Platform.
4. Cloud runs rule-based triggers and alerts.
5. Updated device status and alerts are shown in User App UI.

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my name, email, and password.	I can access my account / dashboard	High	Sprint-1
Customer (Mobile user)	Login	USN-2	As a user, I can log into the application securely using my email and password.	I can receive confirmation email & click confirm.	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Dashboard	USN-3	As a user, I can view a live market dashboard displaying current stock prices and trends.	Dashboard successfully fetches and displays real-time data via API polling.	High	Sprint-1
Customer (Web user)	Simulated Trading	USN-4	As a user, I can register for the application through Gmail	Virtual wallet balance accurately deducts/adds funds, and trade logs to history.	High	Sprint-1
Customer (Web user)	Portfolio	USN-5	As a user, I can view my active stock holdings alongside my current profit or loss.	UI displays accurate calculations (green for profit, red for loss) based on current vs buy price.	Medium	Sprint-1
Customer (Web user)	Admin Dashboard	USN-6	As an admin, I can view a dashboard showing total active users and overall platform trade volume.	Admin dashboard loads successfully with accurate aggregate data from the database.	Medium	Sprint-1
